

USMAN TAHIR

UI Designer | Front End Developer

@ u.t_123@yahoo.com www.linkedin.com/in/usman7tahir <https://github.com/Usmantahir0707>
Faisalabad, PK

INTRODUCTION

Hi, my name is Usman, and I'm an innovative web developer with a knack for transforming concepts into fully functional and engaging digital experiences. With a strong command of front-end technologies like HTML, CSS, and JavaScript, I bring designs to life while ensuring seamless performance across platforms. Driven by a passion for problem-solving and a commitment to staying ahead in web trends, I aim to create websites that not only meet client goals but also delight users.

EXPERIENCE

Front End Developer

LoopWeb

02/2022 - 07/2024 Fsd, PK

- Developed responsive and user-friendly websites using HTML, CSS, and JavaScript to ensure optimal performance across devices and browsers.
- Collaborated with designers to translate mockups and wireframes into seamless, interactive user interfaces.
- Implemented dynamic features and animations using modern JavaScript frameworks and libraries, enhancing the user experience.
- Optimized website performance through efficient coding practices, image optimization, and implementing lazy loading techniques.
- Maintained cross-browser compatibility and resolved layout inconsistencies.
- Integrated RESTful APIs to fetch and display real-time data, ensuring smooth functionality across platforms.
- Conducted usability testing to improve design and functionality, reducing bounce rates and increasing user engagement.
- Worked closely with back-end developers to ensure seamless integration of front-end and back-end systems.
- Stayed updated on emerging web trends and technologies to incorporate innovative solutions into projects.
- Contributed to the company's branding efforts by ensuring all web interfaces aligned with the overall design guidelines.

UI Developer

Freelancer

06/2017 - 12/2019 Remote

- Designed and developed user interfaces for multiple businesses across various industries, ensuring intuitive and visually appealing designs.
- Created responsive UI components using HTML, CSS, and JavaScript, tailored to client requirements and branding guidelines.
- Collaborated directly with clients to gather requirements, provide design solutions, and deliver customized interfaces.
- Built and optimized reusable UI components to streamline development processes for future projects.
- Developed mobile-first, responsive designs to ensure seamless functionality on devices of all sizes.
- Incorporated user feedback into design revisions to enhance usability and improve user satisfaction.
- Used tools like Figma and Sketch to prototype and communicate design concepts effectively.
- Delivered projects on time while managing multiple client deadlines in a fast-paced freelance environment.
- Ensured pixel-perfect implementation of client-approved designs, maintaining high attention to detail.
- Focused on accessibility and user-centric design principles to create inclusive web experiences.

PROJECTS

Portfolio

<https://usmantahir0707.github.io/Portfolio>

"A responsive portfolio website showcasing my front-end development skills with clean design, interactive projects, and animations for a smooth user experience."

Virtue Hearing Aid Center

<https://virtuehearing.com>

"Virtue Hearing Aid is a responsive website I developed as a freelance project. Designed and built the front end using HTML, CSS, and JavaScript, focusing on clean navigation and a user-friendly layout."
